STORE-SAFE
PO Box 75
LEICHHARDT NSW 2040

Attn: Mr Paul Langdon

To Whom It May Concern:

RE: STANDARD "SHEET MATERIAL TROLLEY" BY STORE-SAFE

**STRUCTURAL DESIGN CERTIFICATION – FOR N.S.W., QUEENSLAND,
VICTORIA, (AND OTHER STATES WHERE C.P.ENG IS ACCEPTED)**

This is to certify the following:

- That the structural design of the above trolley has been checked by appropriately qualified engineers, for compliance with relevant Australian Standards, and for the ability to cater for expected loads and conditions.
- On this basis, the sheet material trolley is certified for a safe working load of 970 kilograms.
- That the structural design complies specifically with the following:
 - Australian Standards – AS1170.1, 4100

The design is represented on the drawings by Store-Safe named as follows:

Sheet Material Trolley -Issue 3, Pipe-5 – issue 3, Chan-14 – issue 2, Plt-25- issue 2, Bar-08 – issue 3. (copy attached to our calculations).

Note that this certification applies only when trolleys are used in the following circumstances:

- For their design purpose – ie the moving of sheet materials on a level floor, within a building.
- Strictly in accordance with all manufacturer's recommendations.
- Use and supervision by appropriately trained and qualified people, with care appropriate to a heavily loaded vehicle, and in accordance with all Workcover guidelines.

No assurances are given for other circumstances.

If you have any queries regarding this matter, please contact me.

Yours faithfully,

WAYNE TAYLOR BE (Hons I), MBA, CPEng
